

COURSE OF ITALIAN CULTURE AND LANGUAGE: "FOUNDATION COURSE - SUPPLEMENTARY YEAR"

WHAT IT IS

This is an intensive interdisciplinary propaedeutic course aimed at international students from countries whose national school system requires 11 years for the final secondary school qualification.

At the end of the course, students will obtain 60 CFA (Academic Training Credits) aimed at supplementing the school curriculum in order to allow entry to academic courses.

In order to run the course, the "Pietro Vannucci" Academy of Fine Arts may enter into agreements with foreign university-level training institutes or agencies recognised by the Chinese government to whom it entrusts prior recruitment.

OBJECTIVES

Through this course, foreign students will have the opportunity to improve their Italian linguistic competence and their historical and cultural knowledge of Italy and Italian style, acquiring the basic methodological and cultural skills needed to successfully tackle the academic course.

They will be provided with the fundamental linguistic and cultural tools for an optimal understanding of the curricular lessons of the chosen course as well as with basic notions of the history of Italian art and of European countries; all essential skills for preparation for the entrance examination at this institution and for an optimal understanding of the curricular lessons.

The language lessons will focus on understanding the specific academic vocabulary, allowing the development of the following skills: listening, reading, drafting a written text, grammatical reflection, expression and conversation.

The language objective is to achieve the B1/B2 level required by Italian academic institutions for access to diploma courses.

COURSE STRUCTURE

The course lasts no less than 500 hours.

Intermediate tests will be held during the course to check learning and prepare students for the final exam through which their knowledge of the Italian language will be ascertained.

The programme also includes guided visits to monuments, museums and places of historical and artistic interest in the city.

The course is conducted in Italian or English.

For students who require the course to be conducted in English, the "Foundation Course - Integrative Year" includes Italian language lessons and lessons on Italian culture and art history in English.

The language lessons are conducted by teachers who are qualified by current legislation and have proven teaching experience.

Supporting figures such as language mediators and art historians will take care of the programme of guided tours.
